

safety precautions to utilize during load checking activities, used oil management requirements and contamination issues, classroom exercises on waste classification, and field exercise at the facility to demonstrate safe load checking procedures.

Option B: 8:00 am-5:00 pm

HAZWOPER Refresher Certification Training

is offered to satisfy the Occupational Safety and Health Administration (OSHA) regulation for an annual 8-hour refresher to the 29 CFR 1910.120/1926.65 HAZWOPER Standard. This course will be taught by Larry Garcia, Hazardous Materials Specialist, Prezant Associates, Inc.

Option C: 8:00 am-5:00 pm

Day 1 of 24-Hour Health and Safety Certification

Training is a comprehensive course in health and safety fundamentals directly relating to HHW and CESQG wastes. This course will assist employers in satisfying the Occupational Safety and Health Administration (OSHA) regulation for basic health and safety required for operations and managing HHW and CESQG wastes. This course will be taught by Jim Neely from King County, Scott Windsor, from Spokane County and Dave Nightingale from Washington State Department of Ecology.

Option D: 8:30 am-4:00 pm, Facility Tours

■ **HAMMER Facility:**

HAMMER is a U.S. Department of Energy training facility specializing in hands-on training for the Hanford Nuclear site and the nation's Homeland Security mission. HAMMER stands for Hazardous Materials Management and Emergency Response. Since HAMMER opened its doors, it has played an integral part in preparing workers and emergency responders for high-risk tasks and the use of new technologies.

■ **City of Richland HHW Facility:**

This 1,000 square foot HHW facility has been operating since 1994 and provides free disposal of HHW to Benton County residents. Items accepted at the facility include paint (oil base and latex), pesticides, fuels, acids and bases, light ballasts, fluorescent light tubes, oxidizers, and many other chemicals. The facility also has a small quantity generator program and has special programs such as electronic collections, and work on a Rehab the Lab program for county high schools.

■ **Yakima County MRW Facility:**

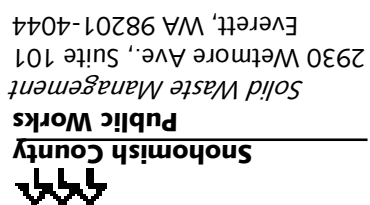

This 3,000 square foot facility has been operating since 1997 and provides free disposal of hazardous wastes to Yakima County residents and to small quantity generators. In 2002, 1.75 million pounds of hazardous wastes were collected. Items accepted at the facility include paint (oil base and latex), pesticides, fuels, acids and bases, light ballasts, fluorescent lamps, oxidizers, and many other chemicals. The facility is currently involved in a pilot lamp crushing project.

 Thursday, June 5 and
Friday, June 6

Option C (continued): 8:00 am-5:00 pm
Day 2 and Day 3 of 24-hour Health and Safety
Certification Training

This paper is recycled & recyclable. April 2003

Conference Sponsors:

- City of Seattle
- City of Spokane
- Clark County
- EPAI
- Franklin County
- King County Solid Waste

For More Information

This registration brochure and additional information, including more detailed lists of workgroups and technical sessions, will be available on both the NAHMMA (www.nahmma.org) and Washington State Department of Ecology (www.ecy.wa.gov/programs/swfa/mrw) websites. Please check either website for updates. Information will be posted as it becomes available.

Conference

This year technical sessions reflect the variety of our work scope. We are facility operators, environmental educators and advocates for change. To support the many facets of our jobs, you can participate in sessions, workgroups and trainings including:

- New policies and legislation
- Facility and program budget discussions
- Facility operations
- Product stewardship initiatives

Sunday, June 1

4:00-5:45 pm
Registration (hotel lobby)

6:00-9:00 pm, Winery Tour

MSE, Inc. is sponsoring a fun winery tour for those arriving early. This tour includes bus transportation to and from the hotel and wineries. We will be touring and tasting at three wineries: Bookwalter Winery, Barnard Griffin Winery, and Kiona Winery. This event does not include food, so eat ahead of time or pack some snacks for the bus. Space is available for the first 44 participants that register (see Registration Form).

Monday, June 2

7:30-8:00 am
Registration & Continental Breakfast

8:00-10:00 am, Plenary Session

10:00 am-5:00 pm
Technical Sessions & Workshops

More information about technical sessions will be available at a later date on the NAHMMA and Ecology websites.

Workshop topics include: mercury, E-waste, cross media bridge building and new Washington regulations.

Noon-1:00 pm, Lunch

5:30-8:00 pm, Reception/Awards Dinner
An award nomination packet will be forthcoming.
